

Millipore®

Preparation, Separation,
Filtration & Monitoring Products

FIRE UP YOUR RESEARCH

With neuroinflammation biomarker immunoassays
that will ignite your studies

Find your spark at
SigmaAldrich.com/neuroinflammation

The Life Science business of Merck KGaA, Darmstadt, Germany
operates as MilliporeSigma in the US and Canada.

Beyond Biomarkers

Keep your focus on the next stage. Our rigorously tested and limitation-lifting immunoassay platforms provide you with all the AssayAbilities to take your neuroinflammation research further.

Genuine FlexAbility

Our industry-leading MILLIPLEX® multiplex assays for the Luminex® platform give you the FlexAbility to select your combination of cytokine and chemokine markers of neuroinflammation and neurodegeneration to simultaneously analyze with ease.

Next-Level DetectAbility

Our ultrasensitive SMC® kits for the SMCxPRO® platform take your research to the next level by detecting neuroinflammation and neurodegenerative biomarkers down to fg/mL levels.

Designed RelyAbility

Our Conferma® ELISAs are engineered for endogenous detection and lot-to-lot consistency of routine-use biomarkers of neuroinflammation to keep your data reproducible, run after run.

For Research Use Only. Not For Use In Diagnostic Procedures.
