

Automation

Automated applications support for genomics, proteomics and drug discovery

- ▶ *Validated protocols*
- ▶ *On-site installation*
- ▶ *User training provided*

Millipore offers applications support for automating genomics, proteomics and drug discovery products on a range of robotic systems. Our automation specialists will provide on-site installation of validated programs developed by Millipore. All program installations are tested on site. User training for the automated application is also included.

Validated Applications

Millipore automation programs are developed in-house on a range of robots. The programs are optimized to ensure full reliability. The list below details examples of validated applications available for installation. For a full list of available programs, visit www.millipore.com/automation.

AUTOMATION SYSTEMS*

EXAMPLE APPLICATIONS:

Plasmid Preparation

Fosmid Preparation

PCR Cleanup

DNA Sequencing Cleanup

Drug Transport Assay (Caco-2)

Drug Solubility

Passive Transcellular Drug Permeability Assay

Plasma Protein Binding

Protein Concentration and Desalting

In-Gel Digestion

	Beckman Biomek® 2000	Beckman Multimek™	Beckman Biomek FX	PerkinElmer MultiPROBE® II	Tecan Genesis®	Tecan MiniPrep	Hamilton MicroLab® Star
Plasmid Preparation	●	●	●	●

Plasma Protein Binding					●		
Protein Concentration and Desalting				●	●		
In-Gel Digestion				●	●		

*Automation support does not cover the cost of hardware or additional system software that may be required.

Ordering Information

Description	Catalog no.
Application Automation Support for Laboratory Automated Systems	
Full day service charge including travel	LSK LAB HTS
Half day service charge including travel	LSK LAB 005
