NAV-4-2

NovAseptic® Connector NovAseptic® Sample Port

Catalogue Number NAV-4-2

NovAseptic® Sample Port Configuration

42.0

(1.654)

Specifications

Net Weight (approximate)		
NovAseptic Sample Port	NAV-4-2	
Weight kg (lb)	0.4 (0.88)	

Material					
	Body Stainless Steel in Compliance with		Membrane	O-ring	
Material Code	316L	EN 1.4404	Platinum Cured Silicone	PTFE	
Technical Requirements	ASME® SA-479	EN 10272	-	-	

Spare Parts			
	NAV-4-2		
Membrane	NAV-4-14	NAV-4-14/10	
	1 pcs	10 pcs	

Specifications				
Product Contact Surface Roughness: Ra < 0.5µm (20µin)				
Design Temperature:	-80 to 200 °C (-1 1 2 to 392 °F)			
Design Pressure:	-1 to 7 bar(g) (-14.5 to 101 psi(g))			
Note!	The applied gasket (not included) may have different design temperature and/or pressure limits than the NovAseptic Sample Port. The weakest component in the assembled product determines the maximum design temperature and pressure limits.			
Labeling:	Each NovAseptic Sample Port is labeled for full LOT traceability and heat No. according to Millipore QA routines.			
Packaging:	All open ends on the NovAseptic Sample Port are protected with plastic covers on delivery. The NovAseptic Sample Port is pre-assembled and packaged in a closed box.			
Quality Control:	Millipore Quality Assurance System guarantees the control and traceability at all stages of the manufacturing.			
In Compliance With:	The NovAseptic Connector is designed to meet requirements for Europe PED Directive 97/23/EC, AFS 1999:4 and AD2000. Design review includes construction and internal pressure. Calculations/analysis are conducted with a gasket of silicone or EPDM.			
Options:	For non-standard NovAseptic Sample Port Options, please contact Millipore for further information.
