

Product Information

ANTI-HUMAN LAMBDA LIGHT CHAIN

(BOUND AND FREE)

Delipidized Whole Antiserum

Developed in Goat

Product Number **L 5267**

Product Description

Anti-Human Lambda Light Chain is developed in goat using Bence-Jones urine as the immunogen. The antiserum has been treated to remove lipoproteins.

Reagents

Goat anti-Human Lambda Light Chain antiserum is supplied as a liquid containing 0.1% sodium azide as preservative.

Precautions and Disclaimer

Due to the sodium azide content a material safety data sheet (MSDS) for this product has been sent to the attention of the safety officer of your institution. Consult the MSDS for information regarding hazards and safe handling practices.

Storage/Stability

For continuous use, store at 0-5 °C. For extended storage, the solution may be frozen in working aliquots. Repeated freezing and thawing is **not** recommended. Storage in "frost-free" freezers is **not** recommended. If slight turbidity occurs upon prolonged storage, clarify the solution by centrifugation before use.

This goat antiserum was maintained at pH 5.0 for 40 minutes to meet USDS requirements.
