

Supelco

Quality Control Products

PRECISION IS OUR STRENGTH

**Analytical Standards &
Certified Reference Materials**

The life science business of Merck operates
as MilliporeSigma in the U.S. and Canada.

MERCK

WE ARE DEDICATED TO PRECISION AND QUALITY

As the only manufacturer of analytical standards and certified reference materials with a global presence, we provide the scientific community with a comprehensive portfolio and trusted brands including:

- Pestanal®
- Cerilliant®¹
- Vetranal™
- TraceCERT®
- Aquastar™
- Certipur®

High quality reference materials are available only from organizations with a robust quality system. Double Accreditation to ISO/IEC 17025 and ISO Guide 34², represents the pinnacle of quality system achievement and allows the credible production and testing of

Certified Reference Materials (CRMs). All our four reference material manufacturing sites are double accredited.

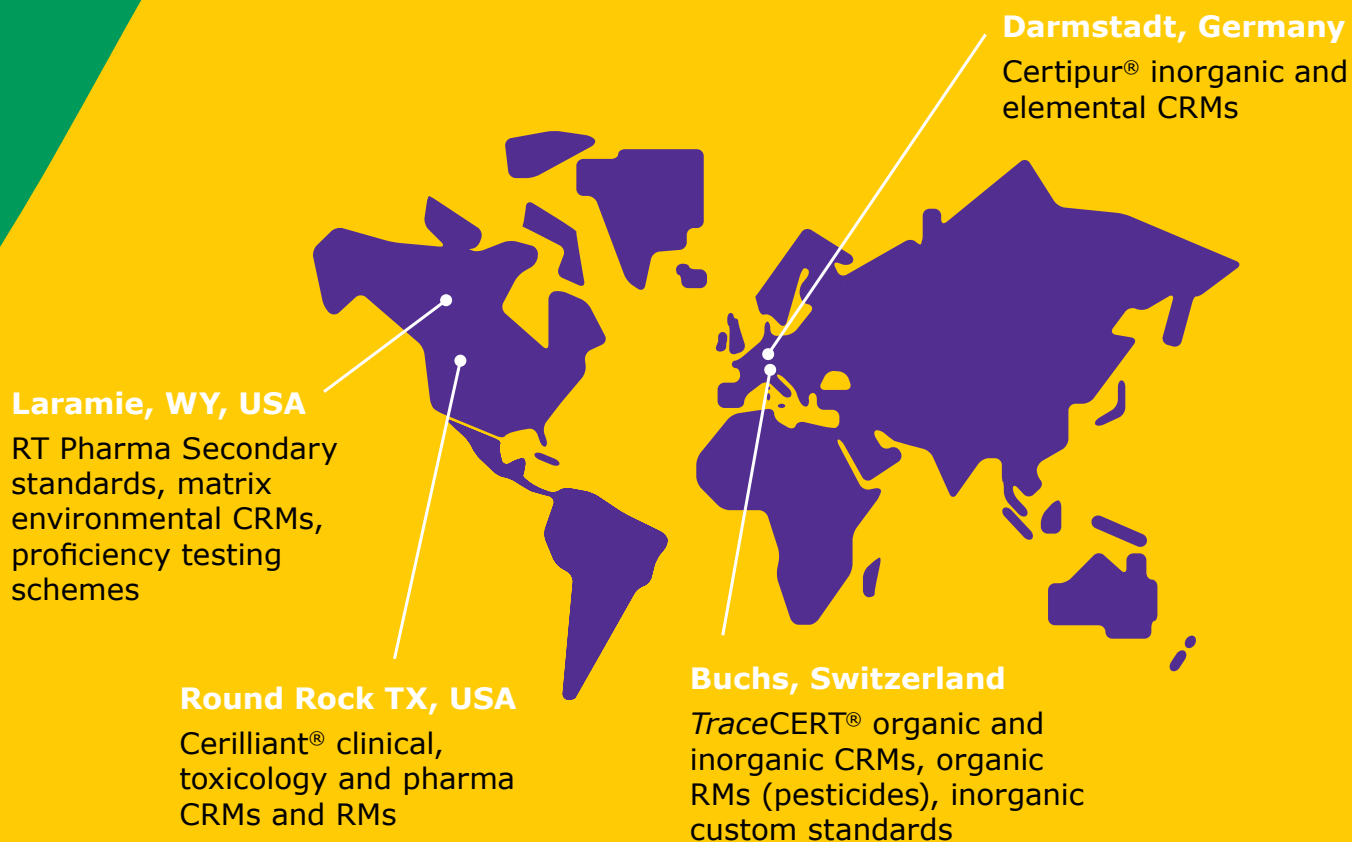

The life science business of Merck brings together the world-class products and services, innovative capabilities and exceptional talent of Merck Millipore and Sigma-Aldrich to create a global leader in the life science industry.

¹. Cerilliant® may not be distributed through Merck in some countries.

². Changing to ISO/IEC 17034.

Our exciting transformation is reflected in our striking new design. It shows you exactly what you can expect from Merck: A Bright Future.

NO DOUBTS. NO DELAYS. JUST PRECISION!

custom capabilities

Our custom solutions offer products and services that help streamline delivery of premium materials ensuring safety and stringency in testing.

Organic Custom Standards

- For environmental, food & beverage, petroleum, chemical, and pharmaceutical applications
- Includes Safety Data Sheet (SDS) and Certificate of Composition
- Certificate of Analysis provided if testing is requested

Inorganic Custom Standards

- For AAS, ICP, and ion chromatography applications
- Produced in an accredited laboratory, according to ISO/IEC 17025 and ISO Guide 34
- Printed Certificate according to ISO Guide 31

Specialty Packaging from Supelco®

- We provide reference material packaging services – large or small jobs
- Services include ampul filling; working with hygroscopic, light sensitive, or other delicate materials
- Private/Original Equipment Manufacturer (OEM) labeling and custom packaging

Customware & OEM

- Sigma-Aldrich has a well-established history of cooperation with instrument suppliers worldwide
- We provide the supporting chemistry so you can deliver the complete package of instrumentation plus necessary reagents to your customers

Custom Services from Cerilliant®

- Custom Reference Standards
- Custom Organic Synthesis
- Analytical Services
- Custom Packaging
- Inventory Management and Distribution of Client Reference Materials
