ProductInformation

ANTI-HORSE WHOLE SERUM Developed in Rabbit Delipidized, Whole Antiserum

Product No. H 8890

Product Description

Anti-Horse Whole Serum was developed in rabbit using pooled normal horse serum as the immunogen. The antiserum has been treated to remove lipoproteins.

Strong reactivity with normal horse serum has been determined by immunoelectrophoresis (IEP). This antiserum has not been assayed for interspecies cross reactivity.

Reagents

Rabbit Anti-Horse Serum is provided as a liquid containing 15 mM sodium azide (see MSDS)* as a preservative.

Precautions

*Due to the sodium azide content a material safety data sheet (MSDS) for this product has been sent to the attention of the safety officer of your institution. Consult the MSDS for information regarding hazards and safe handling practices.

Product Profile

Protein concentration is determined by Biuret.

Storage

For continuous use, store at 2-8 °C for up to one month. For extended storage, the solution may be frozen in working aliquots. Repeated freezing and thawing is **not** recommended. Storage in "frost-free" freezers is **not** recommended. If slight turbidity occurs upon prolonged storage, clarify the solution by centrifugation before use.
