DNA Molecular Weight Marker IX

 **Version: 18**

Content Version: July 2021

Fragment sizes: 72 to 1,353 bp
ΦX 174 DNA × Hae III digested.

Cat. No. 11 449 460 001 50 µg
 200 µl
 50 gel lanes

Store the product at –15 to –25°C.

1. General Information

1.1. Contents

| Vial / bottle | Label | Function / description | Content |
|---------------|--------------------------------|--|---------------------------|
| 1 | DNA Molecular Weight Marker IX | <ul style="list-style-type: none"> Ready-to-use solution in 10 mM Tris-HCl, 1 mM EDTA, pH 8.0, (250 µg/ml). 50 µg corresponds to 1 A₂₆₀ unit. | 1 Vial, 50 µg (200 µl) |

1.2. Storage and Stability

Storage Conditions (Product)

When stored at –15 to –25°C, the product is stable through the expiry date printed on the label.

| Vial / bottle | Label | Storage |
|---------------|--------------------------------|--|
| 1 | DNA Molecular Weight Marker IX | Store at –15 to –25°C. After thawing, store at +2 to +8°C. ⚠ Avoid repeated freezing and thawing. |

1.3. Application

Use DNA Molecular Weight Marker IX as a size standard for DNA in agarose gels.

2. How to Use this Product

2.1. Before you Begin

General Considerations

Size distribution

Fragment mixture prepared by cleavage of ΦX174 DNA with restriction endonuclease Hae III. The mixture contains 11 DNA fragments with the following base pair lengths (1 base pair = 660 daltons).

i *Fragment lengths are derived from computer analysis of the ΦX174 DNA sequence.*

| bp |
|--|
| 1,353 1,078 872 603 310 281 271 234 194 118 72 |

3. Results

Typical analysis

The DNA fragment mixture shows the typical pattern of 10 bands in agarose gel electrophoresis, see Figure 1.

- After gel electrophoresis of 1 µg of the fragment mixture in a 1% Agarose MP* gel, 10 bands are visible.
- The 281 bp and 271 bp fragments run as one band.

Fig. 1: Separation of 1 µg DNA Molecular Weight Marker IX on a 1% Agarose MP gel, stained with ethidium bromide.

4. Supplementary Information

4.1. Conventions

To make information consistent and easier to read, the following text conventions and symbols are used in this document to highlight important information:

| Text convention and symbols | |
|---|--|
|  | <i>Information Note: Additional information about the current topic or procedure.</i> |
|  | Important Note: Information critical to the success of the current procedure or use of the product. |
| ① ② ③ etc. | Stages in a process that usually occur in the order listed. |
| ① ② ③ etc. | Steps in a procedure that must be performed in the order listed. |
| * (Asterisk) | The Asterisk denotes a product available from Roche Diagnostics. |

4.2. Changes to previous version

Layout changes.
Editorial changes.

4.3. Trademarks

All product names and trademarks are the property of their respective owners.

4.4. License Disclaimer

For patent license limitations for individual products please refer to:
List of biochemical reagent products.

4.5. Regulatory Disclaimer

For life science research only. Not for use in diagnostic procedures.

4.6. Safety Data Sheet

Please follow the instructions in the Safety Data Sheet (SDS).

4.7. Contact and Support

To ask questions, solve problems, suggest enhancements or report new applications, please visit our **Online Technical Support Site.**
