

Product Information

Anti-PTHrP
antibody produced in chicken,
affinity isolated antibody

Catalog Number **GW21454**
Formerly listed as GenWay Catalog Number 15-288-21454,
Parathyroid hormone-related protein Antibody.

Storage Temperature Store at -20 °C

Synonyms: gamma interferon induced monokine, PTH-rP;
PTHrP

Product Description

Parathyroid-related protein signaling through its receptor. PTHR1 regulates endochondral bone development and epithelial-mesenchymal interactions during the formation of the mammary glands and teeth. PTHrP is responsible for most cases of humoral hypercalcemia of malignancy.

NCBI Accession number: AAA39706
Swiss Prot Accession number: P12272

Gene Information: Human .. PTHrP (5744)

Immunogen: Recombinant protein gamma interferon induced monokine

Immunogen Sequence: GI # 131542, sequence 36 - 94

The product is a clear, colorless solution in phosphate buffered saline, pH 7.2, containing 0.02% sodium azide.

Species Reactivity: Human

Tested Applications: WB

Recommended Dilutions: Recommended starting dilution for Western blot analysis is 1:500, for tissue or cell staining 1:200.

Note: Optimal concentrations and conditions for each application should be determined by the user.

Precautions and Disclaimer

This product is for R&D use only, not for drug, household, or other uses. Due to the sodium azide content a material safety data sheet (MSDS) for this product has been sent to the attention of the safety officer of your institution. Please consult the Material Safety Data Sheet for information regarding hazards and safe handling practices.

Storage/Stability

For continuous use, store at 2-8 °C for up to one week. For extended storage, store in -20 °C freezer in working aliquots. Repeated freezing and thawing, or storage in "frostfree" freezers, is not recommended. If slight turbidity occurs upon prolonged storage, clarify the solution by centrifugation before use. Working dilution samples should be discarded if not used within 12 hours.
