

SUMMARY

The life science business of Merck KGaA, Darmstadt, Germany, which operates as MilliporeSigma in the U.S. and Canada, has obtained the right to grant non-exclusive sublicenses to the patents and patent applications owned and controlled by Laboratoire français du Fractionnement et des Biotechnologies S.A. (LFB) which are listed in Schedule 1, strictly limited to the use of chromatography materials manufactured by the life science business of Merck KGaA, Darmstadt, Germany (Eshmuno® P Anti-A and/or Eshmuno® P Anti-B resins in this case).

Customers purchasing the Eshmuno® P Anti-A and/or Eshmuno® P Anti-B resins may receive a sublicense from Merck KGaA, Darmstadt, Germany or one of its affiliates for these resins to be used for research, development and manufacture of plasma products using such products (including toll and contract manufacturing for third parties).

Customers with the sublicense shall have the right to sub-license and/or transfer their manufacturing processes and/or plasma product registrations which include the use of the Eshmuno® P Anti-A and/or Eshmuno® P Anti-B resins to their affiliates, cooperation partners, distributors and third party contract manufacturers.

Schedule 1 – Patent Rights

Original title: Process for preparing an immunoglobulin G (IgG) concentrate depleted of Anti-A and Anti-B antibodies
