

ANTI-RABBIT WHOLE SERUM

Developed in Goat

Delipidized, Whole Antiserum

Product No. **R 5131**

Product Description

Anti-Rabbit Whole Serum was developed in goat using pooled normal rabbit serum as the immunogen. The antiserum has been treated to remove lipoproteins. Goat Anti-Rabbit Serum is provided as a liquid containing 0.1% sodium azide (see MSDS)* as preservative.

Strong reactivity with normal rabbit serum has been determined by immunoelectrophoresis (IEP). This antiserum has not been assayed for interspecies cross reactivity.

Precautions

*Due to the sodium azide content a material safety data sheet (MSDS) for this product has been sent to the attention of the safety officer of your institution. Consult the MSDS for information regarding hazards and safe handling practices.

This goat antiserum was maintained at pH 5.0 for 40 minutes to meet U.S.D.A. requirements.

Product Information

Product Profile

Protein Concentration = Determined by Biuret.

Storage

For continuous use, store at 2-8 °C for up to one month. For extended storage, the solution may be frozen in working aliquots. Repeated freezing and thawing is **not** recommended. Storage in "frost-free" freezers is **not** recommended. If slight turbidity occurs upon prolonged storage, clarify the solution by centrifugation before use.
