

Specification Sheet

NovAseptic® Valve, Valve Body, Shut off 90°, TC Connectable, Elbow 45° TC

Product Description

The NovAseptic® valve is specifically designed for aseptic applications and complies with the most stringent cleanability and sterilization requirements. The focus on aseptic design is a significant feature for all valves. The NovAseptic® valve is designed for minimum dead leg, complete drainability and high chemical resistance.

Specifications

Catalogue No.	Net Volume (valve cavity, diaphragm applied) mL	Net Weight (approximate) kg (lb)
NU050/4712-222	4	0.3 (0.66)

Material				
	Bar Stainless Steel in Compliance with		Tubing Stainless Steel in Compliance with	
Material Code	316L	EN 1.4404	TP316L	EN 1.4404
Technical Requirements	ASME® SA-479	EN 10272	ASTM® A269/270	EN 10217-7/EN 10216-5

Specifications	
Surface Roughness	Internal surface (electro polished) $Ra \leq 0.38 \mu\text{m}$ (15 μin) External surface $Ra \leq 1.6 \mu\text{m}$ (63 μin)
Design Temperature, Valve Body	-80 to 200 °C (-112 to 392 °F)
Design Pressure, Valve Body	-1 to 10 bar(g) (-14.5 to 145 psi(g))
Note	The valve body can only be used with NovAseptic® diaphragm, actuator and position indicator (optional). The applied diaphragm and actuator have different design temperature and/or pressure limits. The weakest component in the assembled product determines the maximum operating/design temperature and pressure limits.
Labeling	Each valve body is individually labeled for full traceability and heat No. according to our QA routines.
Packaging	All open ends on the valve body are protected with plastic covers on delivery and packaged in a closed box.
Quality Control	Our quality assurance system guarantees the control and traceability at all stages of the manufacturing.
Regulatory	<ul style="list-style-type: none"> The NovAseptic® valves, used with gas group 2 and liquid group 1, fall under the art. 4 § 3 of the Pressure Equipment Directive (2014/68/EU). They are not CE marked. They have been designed and manufactured following the sound engineering practices. NovAseptic® valves follow the applicable ASME BPE guideline sections.
Options	For non-standard NovAseptic® valve body options, please contact us for further information.
